

# Build Your Own Circus Train!

1. COLOR in each train car with your favorite colors, be creative!
2. WRITE your name on the line above Train Conductor so the railroad can identify you.
3. Carefully CUT each train car on dotted lines.
4. TAPE or GLUE train cars together, match the letters up for the correct order.  
*Hint: the engine goes first, the car comes next and the caboose is on the end!*
5. Be CREATIVE! How can you make the train stand upright? For example, glue it to a juice box.
6. Then... ALL ABOARD! Your circus train is ready to leave the station!
